

WOODFIELD HOMEOWNERS ASSOCIATION

ARCHITECTURAL GUIDELINES

Satellite Dishes

DISH NETWORK / DIRECT TV

- Dish must be mounted on fascia board.
- No mounting of dish on roof top.
- No cable/wiring allowed lying on roof top.
- All wiring must be concealed and secured down the seam of the building and painted to match the stucco.

Please use good judgment in placement of dish to be the least visible by neighbors and guests.

WARNING: Attaching anything to the roof voids the roof warranty. Any homeowner who damages the roof will be responsible for the costs to return the roof to its original condition, and damages caused to any other units due to their installation and an uncovered warranty work charged to the association on the entire building.

**Any and all exterior home improvements must first receive architectural approval. Contact the Architectural Committee or Management Company for form with instructions.*
